Title: Ironway Rail Link takes on diverted electronics freight
Outlet: Freight & Ledger
Publication Date: 2025-03-08
Source Type: trade_press
Event ID: EVT-A
Country: Brenmark; Corvenia
Sector: electronics
Reliability Tier: 2

Rail operators say the Ironway Rail Link can carry about 20 percent of diverted electronics freight bound for Brenmark while the Serpent Canal is shut.

Extra wagons have been moved from Skarport, but the terminal at Harrowgate limits how many trains can be unloaded each day.

Forwarders warn that rail rates have doubled since the closure.
